

Whispbar QuickDock™ Compatibility

Whispbar accessories with QuickDock technology, or other Whispbar provide hardware, are primarily intended for use with Whispbar rack systems. This results in the easiest and most secure way to attach the accessories to a roof rack system. Whispbar accessories with QuickDock technology are also designed with the intent to be compatible with some roof rack systems of other manufacturers, as far as the rack systems are designed to a specification that is compatible with Whispbar QuickDock technology. Below is a list of roof rack systems that are compatible and incompatible.

Guaranteed Compatibility*

*The compatibility of Whispbar accessories with the t-slot in the following roof rack systems has been verified and tested by Whispbar. Use of Whispbar accessories with these products **maintains** the Whispbar warranty, as long as the accessories are installed and used in accordance with the written Whispbar instructions, guidelines and safety text. This compatibility refers to the use of a Whispbar accessory with QuickDock technology or t-bolt attachment when mounted to the t-slot in the following roof rack bars.*

<u>Aftermarket Roof Rack Systems with t-slots</u>	<u>OEM/Automotive Factory Roof Rack Systems with t-slots</u>
Whispbar Flush Bar	Audi, 2000-2013
Whispbar Through Bar	Jeep, 2006-2012
Whispbar Rail Bar	Land Rover, 2000-2013
Prorack S-Wing	Volkswagen, 1998-2013
Thule Aero Blade	Volvo, 2003-2013
Thule Aero Bar	
Rhino Aero	
Rola Sport	

***Incompatibility**

*The compatibility of Whispbar accessories with the t-slot in any other roof rack bars not listed above, is not guaranteed or endorsed by Whispbar. Such use of Whispbar accessories with bars not listed here **voids** the Whispbar warranty, and Whispbar does not assume any liability. This incompatibility refers to the use of a Whispbar accessory with QuickDock technology or t-bolt attachment when mounted to the t-slot in the following roof rack bars.*
